Psychopedagogy and Learning Support

This presentation summarises the Psychopedagogy Training Programme. It is a comprehensive 6 ECTS programme focused on innovative educational support. The goal is bridging theoretical knowledge with practical intervention. Let's explore the key outcomes.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them

Foundational Theoretical Modules

Cognitive Development Development

Explore cognitive development theories and learning styles.

Psychological Foundations Foundations

Understand the psychological foundations of educational support.

Key Frameworks

Learn frameworks for understanding student learning needs.

These modules provide key frameworks for understanding student learning needs.

Co-funded by
the European Union

Assessment and Diagnostic Strategies

Multi-dimensional techniques

Use multi-dimensional assessment techniques.

Diagnostic Tools

Apply diagnostic tools for personalised intervention.

Use comprehensive evaluation methodologies.

The programme provides techniques for identifying learning challenges.

Co-funded by
the European Union

Intervention and Support Frameworks

1

Personalised support

Use personalised learning support strategies.

2

Inclusive education

Apply inclusive education approaches.

3

Adaptive teaching

Use adaptive teaching methodologies.

These frameworks support strategies for diverse learning environments.

Co-funded by
the European Union

Practical Implementation Techniques

Classroom strategies

Technology

Collaboration

The training focuses on classroom-based intervention strategies and technology-enhanced learning support. Emphasising a collaborative approach with educators and families.

Research and Empirical Insights

Research and Empirical Insights

Evidence-based approaches

Apply evidence-based pedagogical approaches.

Current research

Stay current with research in learning support.

Emerging trends

Track trends in educational psychology.

This includes longitudinal impact of targeted interventions.

Co-funded by
the European Union

Professional Development Outcomes

Professional Development Outcomes

Enhanced diagnostics

Improved diagnostic capabilities in learning support.

Advanced interventions

Advanced intervention strategies for practitioners.

Holistic understanding

A holistic understanding of student learning processes.

The training leads to improved educational support frameworks.

Programme Conclusions and Recommendations

Continued development pathways are key to success in the field.

Key learnings
Review key learnings and programme impact.

Future directions

Consider future directions in psychopedagogy.

Recommendations

Implement recommendations for practitioners.
